STATE OF TENNESSEE COMPTROLLER OF THE TREASURY

State Capitol Nashville, Tennessee 37243-0260 (615) 741-2501

John G. Morgan Comptroller

November 26, 2002

The Honorable Don Sundquist, Governor and
Members of the General Assembly
State Capitol
Nashville, Tennessee 37243
and
The Honorable Charles W. Manning, Chancellor
Tennessee Board of Regents
1415 Murfreesboro Road, Suite 350
Nashville, Tennessee 37217
and

Dr. Wade B. McCamey, President Roane State Community College 276 Patton Lane Harriman, Tennessee 37748

Ladies and Gentlemen:

Transmitted herewith is the financial and compliance audit of the Tennessee Board of Regents, Roane State Community College, for the years ended June 30, 2001, and June 30, 2000. You will note from the independent auditor's report that an unqualified opinion was given on the fairness of the presentation of the financial statements.

Consideration of internal control over financial reporting and tests of compliance disclosed certain deficiencies, which are detailed in the Results of the Audit section of this report. The college's administration has responded to the audit finding; the response is included following the finding. The Division of State Audit will follow up the audit to examine the application of the procedures instituted because of the audit finding.

Sincerely,

John G. Morgan

Comptroller of the Treasury

du G. Morga

JGM/mb 02/052 State of Tennessee

Audit Highlights

Comptroller of the Treasury

Division of State Audit

Financial and Compliance Audit

Roane State Community College
For the Years Ended June 30, 2001, and June 30, 2000

AUDIT OBJECTIVES

The objectives of the audit were to consider the college's internal control over financial reporting; to determine compliance with certain provisions of laws, regulations, contracts, and grants; to determine the fairness of the presentation of the financial statements; and to recommend appropriate actions to correct any deficiencies.

INTERNAL CONTROL FINDING

Purchases Were Not Always Made in Compliance With the Purchasing Policies

Purchases were sometimes completed before a purchase requisition and/or purchase order were prepared. If purchases are not properly approved prior to ordering, the college could be obligated to pay for unauthorized equipment and supplies (page 6).

OPINION ON THE FINANCIAL STATEMENTS

The opinion on the financial statements is unqualified.

"Audit Highlights" is a summary of the audit report. To obtain the complete audit report, which contains all findings, recommendations, and management comments, please contact

Tennessee Board of Regents Roane State Community College For the Years Ended June 30, 2001, and June 30, 2000

INTRODUCTION

POST-AUDIT AUTHORITY

This is a report on the financial and compliance audit of the Tennessee Board of Regents, Roane State Community College. The audit was conducted pursuant to Section 4-3-304, *Tennessee Code Annotated*, which authorizes the Department of Audit to "perform currently a post-audit of all accounts and other financial records of the state government, and of any department, institution, office, or agency thereof in accordance with generally accepted auditing standards and in accordance with such procedures as may be established by the comptroller."

Section 8-4-109, *Tennessee Code Annotated*, authorizes the Comptroller of the Treasury to audit any books and records of any governmental entity that handles public funds when the Comptroller considers an audit to be necessary or appropriate.

BACKGROUND

The idea for Tennessee's community college system was conceived in 1957 when the state legislature ordered a study of community college programs, a study which resulted in the Pierce-Albright Report. Acting on the recommendation of the Governor and the Department of Education, the General Assembly authorized the Department of Education to establish several community colleges throughout Tennessee. Roane State Community College was established as a two-year college by the 1969 General Assembly. The first student was admitted in the fall of 1971. The General Assembly vested the governance of Roane State Community College in the Tennessee Board of Regents on July 1, 1972.

ORGANIZATION

The governance of Roane State Community College is vested in the Tennessee Board of Regents. The Governor, the Commissioner of Education, the Commissioner of Agriculture, and the Director of the Tennessee Higher Education Commission serve *ex officio* on this board. The chief administrative officer of the college is the president, who is assisted and advised by members of the faculty and administrative staff.

AUDIT SCOPE

The audit was limited to the period July 1, 1999, through June 30, 2001, and was conducted in accordance with government auditing standards generally accepted in the United States of America. Financial statements are presented for the years ended June 30, 2001, and June 30, 2000. Roane State Community College is an institution of the Tennessee Board of Regents, which is an integral part of state government. As such, the Tennessee Board of Regents has been included as a component unit in the *Tennessee Comprehensive Annual Financial Report*.

OBJECTIVES OF THE AUDIT

The objectives of the audit were

- 1. to consider the college's internal control over financial reporting to determine auditing procedures for the purpose of expressing an opinion on the financial statements;
- 2. to determine compliance with certain provisions of laws, regulations, contracts, and grants;
- 3. to determine the fairness of the presentation of the financial statements; and
- 4. to recommend appropriate actions to correct any deficiencies.

PRIOR AUDIT FINDINGS

Section 8-4-109, *Tennessee Code Annotated*, requires that each state department, agency, or institution report to the Comptroller of the Treasury the action taken to implement the recommendations in the prior audit report. The college filed its report with the Department of Audit on June 29, 2000. A follow-up of the prior audit finding was conducted as part of the current audit.

RESOLVED AUDIT FINDING

The current audit disclosed that the college has corrected the previous audit finding concerning refunds not calculated for students who unofficially withdraw.

RESULTS OF THE AUDIT

AUDIT CONCLUSIONS

Internal Control

As part of the audit of the college's financial statements for the years ended June 30, 2001, and June 30, 2000, we considered internal control over financial reporting to determine auditing procedures for the purpose of expressing an opinion on the financial statements, as required by government auditing standards generally accepted in the United States of America. A reportable condition, along with the recommendation and management's response, is detailed in the finding and recommendation. Consideration of internal control over financial reporting disclosed no material weaknesses.

Compliance

The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Fairness of Financial Statement Presentation

The Division of State Audit has rendered an unqualified opinion on the college's financial statements.

STATE OF TENNESSEE COMPTROLLER OF THE TREASURY DEPARTMENT OF AUDIT DIVISION OF STATE AUDIT

Report on Compliance and on Internal Control Over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

August 21, 2002

The Honorable John G. Morgan Comptroller of the Treasury State Capitol Nashville, Tennessee 37243

Dear Mr. Morgan:

We have audited the financial statements of Roane State Community College, an institution of the Tennessee Board of Regents, which is a component unit of the State of Tennessee, as of and for the years ended June 30, 2001, and June 30, 2000, and have issued our report thereon dated August 21, 2002. We conducted our audit in accordance with government auditing standards generally accepted in the United States of America. As discussed in Note 9, the college changed the threshold for capitalizing equipment. Also, the college implemented GASB 33, Accounting and Financial Reporting for Nonexchange Transactions.

Compliance

As part of obtaining reasonable assurance about whether the college's financial statements are free of material misstatement, we performed tests of the college's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

We did, however, note certain less significant instances of noncompliance, which we have reported to the college's management in a separate letter.

The Honorable John G. Morgan August 21, 2002 Page Two

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the college's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. However, we noted one matter involving the internal control over financial reporting and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the college's ability to record, process, summarize, and report financial data consistent with management's assertions in the financial statements.

The following reportable condition was noted:

• Purchases were not always made in compliance with the purchasing policies

This condition is described in the Finding and Recommendation section of this report.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we do not believe the reportable condition described above is a material weakness.

We also noted other matters involving the internal control over financial reporting, which we have reported to the college's management in a separate letter.

This report is intended solely for the information and use of the General Assembly of the State of Tennessee and management and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record.

Sincerely,

Arthur A. Hayes, Jr., CPA,

Director

AAH/mb

FINDING AND RECOMMENDATION

Purchases were not always made in compliance with the purchasing policies

Finding

The college's Internal Auditor conducted a purchasing audit for the fiscal year ended June 30, 2000. His testwork revealed that purchases were sometimes completed before a purchase requisition and/or purchase order were prepared. Because of the noncompliance noted in his report, testwork was performed in this audit to compare purchase requisition dates and purchase order dates with the invoice dates. This testwork revealed numerous instances of noncompliance.

The college's purchasing policies were not followed for 8 of 43 disbursements tested for fiscal year 2001 (19%) and 4 of 41 disbursements tested for fiscal year 2000 (10%) because the purchase requisitions were produced after the orders for the items were placed. In addition, for three of the disbursements for fiscal year 2001, the purchase orders were created after the invoice date.

Similar errors were discovered when performing the unrecorded liabilities testwork. For 5 of 25 disbursements tested for July 2001 (20%) and 5 of 25 disbursements tested for July 2000 (20%), the purchase requisitions were produced after the orders for the items were placed. In addition, for two of the five disbursements for July 2001, and two of the five disbursements for July 2000, the required purchase orders were created after the invoice date.

The college's *Purchasing Manual*, Section 2.4, states, "All purchases must have approvals as defined by the College's electronic purchasing system prior to the commitment or purchase. This is done through the submission of an electronic requisition for purchase." In addition, the *Purchasing Training Manual* states that all purchases greater than or equal to \$250.00 are required to have a purchase order.

If purchases are not properly approved prior to ordering, the college could be obligated to pay for unauthorized equipment and supplies.

Recommendation

The Director of Fiscal and Auxiliary Services should take steps to ensure that all departments adhere to the established purchasing policies. Procedures should include regular monitoring of the purchasing process by supervisory staff to ensure compliance.

Management's Comment

The college concurs with the finding and recommendation. While controls were in place to ensure that appropriate approvals were received prior to issuing payment for goods received or services performed, purchasing policy provisions requiring a purchase order be issued prior to ordering were not followed consistently. The college is currently reviewing the purchasing policy to ensure that departments have sufficient flexibility to meet day-to-day operating needs and to identify exceptions where it is not feasible, economical, or appropriate to issue a purchase order in advance. Revisions to purchasing policy occasioned by this review will be completed and communicated to all departments by November 15, 2002.

Effective November 15, 2002, the Purchasing Office will begin monitoring all purchasing transactions for compliance with the revised purchasing policy. A process will be put into effect to provide written notification to any budget manager of transactions that are not in compliance with approved policy. Subsequent noncompliance with policy will result in written notifications to the executive officer of the organizational unit and the Vice President for Financial Services, and, in instances of continuing noncompliance, the college President.

STATE OF TENNESSEE COMPTROLLER OF THE TREASURY DEPARTMENT OF AUDIT DIVISION OF STATE AUDIT

Independent Auditor's Report

August 21, 2002

The Honorable John G. Morgan Comptroller of the Treasury State Capitol Nashville, Tennessee 37243

Dear Mr. Morgan:

We have audited the accompanying balance sheets of Roane State Community College, an institution of the Tennessee Board of Regents, which is a component unit of the State of Tennessee, as of June 30, 2001, and June 30, 2000, and the related statements of changes in fund balances and current funds revenues, expenditures, and other changes for the years then ended. These financial statements are the responsibility of the college's management. Our responsibility is to express an opinion on these financial statements, based on our audit.

We conducted our audit in accordance with government auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Tennessee Board of Regents, Roane State Community College, as of June 30, 2001, and June 30, 2000, and the changes in fund balances and the current funds revenues, expenditures, and other changes for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The Honorable John G. Morgan August 21, 2002 Page Two

As discussed in Note 9, the college changed the threshold for capitalizing equipment. Also, the college implemented GASB 33, *Accounting and Financial Reporting for Nonexchange Transactions*.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 21, 2002, on our consideration of the college's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Sincerely,

Arthur A. Hayes, Jr., CPA,

Director

AAH/mb

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The college is a part of the State University and Community College System of Tennessee (Tennessee Board of Regents). This system is a component unit of the State of Tennessee because the state appoints a majority of the system's governing body and provides financial support; the system is discretely presented in the *Tennessee Comprehensive Annual Financial Report*.

Basis of Presentation

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). The college uses the AICPA College Guide model for accounting and financial reporting.

Basis of Accounting

The financial statements have been prepared on the accrual basis, except that depreciation on plant assets is not recorded and revenues and expenditures of an academic term encompassing more than one fiscal year are reported solely in the fiscal year in which the term is predominantly conducted. All restricted resources are recorded as additions to the fund balances of the appropriate fund groups. Restricted current resources are then recorded as revenues during the period in which they are expended or all eligibility requirements have been met. The statement of current funds revenues, expenditures, and other changes is a statement of financial activities of current funds related to the current reporting period. It does not purport to present the results of operations or the net income or loss for the period, as would a statement of income or a statement of revenues and expenses.

To the extent that current funds are used to finance plant assets, the funds are accounted for as (1) expenditures, for normal replacement of movable equipment and library holdings; (2) mandatory transfers, for required debt amortization and interest; and (3) nonmandatory transfers, for all other cases.

Fund Accounting

To ensure observance of limitations and restrictions placed on the use of the resources available, the college maintains accounts in accordance with the principles of fund

accounting. With this procedure, resources for various purposes are classified for accounting and reporting purposes into funds for specified activities or objectives. Separate accounts are maintained for each fund; however, in the accompanying financial statements, funds with similar characteristics have been combined into fund groups. Accordingly, all financial transactions have been recorded and reported by fund group.

Within each fund group, fund balances restricted by outside sources are so indicated and are distinguished from unrestricted funds which are allocated to specific purposes by the governing board. Externally restricted funds may be used only in accordance with the purposes established by the source of such funds and contrast with unrestricted funds over which the governing board retains full control to use in achieving any of its institutional purposes.

All gains and losses arising from the sale, collection, or other disposition of investments and other noncash assets are accounted for in the fund that owned such assets. Ordinary income derived from investments, receivables, and the like is accounted for in the fund owning such assets, except for income derived from investments of endowment and similar funds. This income is accounted for in the fund to which it is restricted or, if unrestricted, as revenues in unrestricted current funds. All other unrestricted revenue is accounted for in the unrestricted current funds. Restricted gifts, grants, appropriations, endowment income, and other restricted resources are accounted for in the appropriate restricted funds. Restricted current funds are reported as revenues when expended or all eligibility requirements have been met and expenditures when expended for current operating purposes.

Current Funds

Unrestricted current funds consist of those funds over which the college retains full control for use in achieving its authorized institutional purposes. Auxiliary enterprises activities are included in unrestricted current funds and include bookstores, food services, and vending. Restricted current funds are externally restricted and may be used only in accordance with the purposes established by their source.

Loan Funds

Loan funds consist of resources made available for student loans.

Endowment and Similar Funds

Endowment funds are subject to the restrictions of gift instruments requiring in perpetuity that the principal be invested and only the income be used. Although quasi-endowment funds have been established by the governing board for the same purposes as endowment funds, any portion of quasi-endowment funds may be expended.

Plant Funds

The plant funds group consists of (1) funds set aside for the acquisition of physical properties for institutional purposes; (2) funds set aside for the renewal and replacement of institutional properties; (3) funds set aside for debt service charges and for the retirement of the indebtedness on institutional properties; and (4) funds expended for, and thus invested in, institutional properties.

Agency Funds

In handling these funds, the college acts solely as an agent; consequently, transactions of these funds do not affect the college's operating statements.

LGIP Deposit – Capital Projects

Payments related to the college's capital projects are made by the State of Tennessee's Department of Finance and Administration. The college's estimated local share of the cost of each project is held in a separate Local Government Investment Pool (LGIP) account. As expenditures are incurred, funds are withdrawn from the LGIP account by the Tennessee Board of Regents and transferred to the Department of Finance and Administration. The funds in the account are not available to the college for any other purpose until the project is completed and any remaining funds are released by the Tennessee Board of Regents.

Inventories

Inventories are valued at the lower of cost or market. All items are maintained on a first-in, first-out basis.

Compensated Absences

The college's employees accrue annual leave at varying rates, depending on length of service or classification. Some employees also earn compensatory time. The amount of these liabilities and their related benefits are recorded in the current funds. Since

the liability is expected to be funded primarily from future unrestricted revenue sources, a related allocation has been made to the current fund balances so that these fund balances reflect current available funds.

Allocation for Working Capital

The unrestricted fund balance is allocated for the amount of working capital. "Working capital" is defined as the total of all petty cash, accounts receivable, inventories, and prepaid expenses in the unrestricted fund at the balance sheet date, except for student receivables credited to deferred revenue, accrued interest, and amounts due on federal letters of credit, less the accrued benefits on accrued faculty salaries.

Plant Assets

The physical plant and equipment are stated at cost at date of purchase or at fair value at date of donation. Library books are valued at \$48 per volume, and other library holdings are valued at various standardized values, which approximate current costs. Depreciation on the physical plant and equipment is not recorded.

In the case of service departments, the college charges renewal and replacement of plant assets to current expenditures; these charges are also reported as additions to funds for renewals and replacements.

Under a contract with the East Tennessee Human Resource Agency, the college is a service provider for the Local Workforce Investment Area in workforce investment area 4 of the State of Tennessee. The title to all the equipment purchased by the college under the provisions of the Workforce Investment Act resides with the U.S. government. Therefore, this equipment is not included in the college's plant fund assets.

NOTE 2. CASH

This classification includes demand deposits and petty cash on hand. At June 30, 2001, cash consisted of \$395,933.17 in bank accounts, \$7,190.00 of petty cash on hand, and \$5,217,082.27 in the State of Tennessee Local Government Investment Pool administered by the State Treasurer. At June 30, 2000, cash consisted of

\$231,016.63 in bank accounts, \$7,390.00 of petty cash on hand, and \$5,042,595.98 in the State of Tennessee Local Government Investment Pool.

NOTE 3. DEPOSITS

The bank balances of certain deposits including accrued interest as of the balance sheet dates were entirely insured or collateralized with securities held by the college's agent in the college's name.

The laws of the State of Tennessee require that collateral be pledged to secure all uninsured deposits. Tennessee Board of Regents policies require that the market value of collateral pledged equal 115%, 100%, or 90% of the uninsured deposits at financial institutions participating in the collateral pool and 105% of the uninsured deposits at all other financial institutions. The pledge level for financial institutions participating in the collateral pool is based on financial criteria set by the Collateral Pool Board with the financially strongest institutions being eligible for the lowest pledge level.

The college's remaining deposits are in financial institutions which participate in the bank collateral pool administered by the State Treasurer. The securities pledged to protect these accounts are pledged in the aggregate rather than against each individual account. The members of the pool may be required by agreement to pay an assessment to cover any deficiency. Under this additional assessment agreement, public fund accounts covered by the pool are considered to be insured for purposes of credit risk disclosure.

The college also has deposits in the Local Government Investment Pool (LGIP) administered by the State Treasurer. The LGIP is part of the Pooled Investment Fund. The fund's investment policy and custodial credit risk are presented in the *Tennessee Comprehensive Annual Financial Report*.

NOTE 4. INVESTMENTS

The college is authorized by statute to invest funds in accordance with Tennessee Board of Regents policies. Under the current policy, funds other than endowments may be invested only in obligations of the United States or its agencies backed by the

full faith and credit of the United States; repurchase agreements for United States securities; certificates of deposit in banks and savings and loan associations; bankers' acceptances; commercial paper; money market mutual funds; and the State of Tennessee Local Government Investment Pool. The policy requires that investments of endowments in equity securities be limited to funds from private gifts or other sources external to the college and that endowment investments be prudently diversified. Investments are valued at fair value.

The college's investments at June 30, 2001, and June 30, 2000, consisted of certificates of deposit with original maturities greater than three months. These have been included with other deposits in Note 3 to determine the adequacy of collateral security pledged.

NOTE 5. PLANT FUND ENCUMBRANCES

Plant fund encumbrances outstanding at June 30, 2001, amounted to \$80,436.56 for unexpended plant and \$147,377.00 for renewals and replacements. Plant fund encumbrances outstanding at June 30, 2000, amounted to \$55,772.95 for unexpended plant and \$13,075.06 for renewals and replacements.

NOTE 6. LOAN PAYABLE AND TSSBA INDEBTEDNESS

The Tennessee Board of Regents, on behalf of the college, borrowed funds from the state's Energy Management Loan Fund to replace a chiller. The loan has an interest rate of 5%, a face amount of \$145,000.00, a minimum annual debt service of \$33,491.00, and a due date of January 7, 2004. The balance owed by the college was \$91,205.95 at June 30, 2001, and \$118,759.00 at June 30, 2000.

The college's debt service requirements to maturity for the loan payable at June 30, 2001, are as follows:

Year Ending June 30	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2002	\$28,930.70	\$4,560.30	\$ 33,491.00
2003	30,377.24	3,113.76	33,491.00
2004	31,898.01	1,592.99	33,491.00
	\$91,205.95	\$9,267.05	\$100,473.00

The Tennessee State School Bond Authority also authorized the issuance of commercial paper to finance the costs of various capital projects. The amount issued for projects at the college was \$225,000.00 at June 30, 2001, and \$275,000.00 at June 30, 2000.

For the commercial paper program, the Tennessee State School Bond Authority maintains an interest rate reserve fund. The college contributes amounts to the reserve fund based on the amounts drawn. The principal of the reserve will be contributed to pay off notes or credited back to the college when the notes are converted to bonds. The interest earned on the reserve is used to pay interest due during the month.

NOTE 7. PENSION PLANS

A. Defined Benefit Plan

Tennessee Consolidated Retirement System

<u>Plan Description</u> - The college contributes to the State Employees, Teachers, and Higher Education Employees Pension Plan (SETHEEPP), a cost-sharing, multiple-employer, defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement, death, and disability benefits as well as annual cost-of-living adjustments to plan members and their beneficiaries. Title 8, Chapters 34-37, *Tennessee Code Annotated*, establishes benefit provisions. State statutes are amended by the Tennessee General Assembly.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for SETHEEPP. That report may be obtained by writing to the Tennessee Department of the Treasury, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, Tennessee 37243-0230, or by calling (615) 741-8202.

<u>Funding Policy</u> - Plan members are noncontributory. The college is required to contribute an actuarially determined rate. The current rate is 6.19% of annual covered payroll. Contribution requirements for the college are established and may be amended by the TCRS' Board of Trustees. The college's contributions to TCRS for the years ended June 30, 2001, 2000, and 1999, were \$505,485.57,

\$455,959.52, and \$470,446.49. Contributions met the requirements for each year.

B. Defined Contribution Plans

Optional Retirement Plans (ORP)

<u>Plan Description</u> - The college contributes to three defined contribution plans: Teachers Insurance and Annuity Association—College Retirement Equities Fund (TIAA-CREF), Aetna Life Insurance and Annuity Company, and Variable Annuity Life Insurance Company (VALIC). These plans are administered by the Tennessee Department of the Treasury. Each plan provides retirement benefits to faculty and staff who are exempt from the overtime provisions of the Fair Labor Standards Act and who waive membership in the TCRS. Benefits depend solely on amounts contributed to the plan plus investment earnings. Plan provisions are established by state statute in Title 8, Chapter 35, Part 4, *Tennessee Code Annotated*. State statutes are amended by the Tennessee General Assembly.

<u>Funding Policy</u> - Plan members are noncontributory. The college contributes an amount equal to 10% of the employee's base salary up to the social security wage base and 11% above the social security wage base. Contribution requirements are established and amended by state statute. The contribution made by the college to the plans was \$468,191.09 for the year ended June 30, 2001, and \$456,281.45 for the year ended June 30, 2000. Contributions met the requirements for each year.

NOTE 8. OTHER POST-EMPLOYMENT BENEFITS

The State of Tennessee administers a group health insurance program which provides post-employment health insurance benefits to eligible college retirees. This benefit is provided and administered by the State of Tennessee. The college assumes no liability for retiree health care programs. Information related to this plan is available at the statewide level in the *Tennessee Comprehensive Annual Financial Report*.

NOTE 9. CUMULATIVE EFFECT OF A CHANGE IN ACCOUNTING PRINCIPLE

During the year ended June 30, 2000, the threshold for capitalizing equipment increased from \$1,000 to \$5,000. As a result of the change, equipment decreased by \$5,686,012.69.

NOTE 10. INSURANCE-RELATED ACTIVITIES

The state purchases commercial insurance for real property losses above \$5 million per year and surety bond coverage on the state's officials and employees. During the year ended June 30, 1999, the state incurred losses in Clarksville and Jackson due to damage from tornadoes. The final settlement of \$8.96 million for the tornado damage in Clarksville was made during the year ended June 30, 2001. In the years ended June 30, 2000, and June 30, 1998, the state did not have any claims filed with the commercial insurer. A designation for casualty losses in the amount of \$8.731 million at June 30, 2001, and \$7.256 million at June 30, 2000, was established in the state's general fund to provide for any property losses not covered by the commercial insurance.

At June 30, 2001, the scheduled coverage for the college was \$49,698,800 for buildings and \$19,719,700 for contents. At June 30, 2000, the scheduled coverage was \$49,082,200 for buildings and \$18,104,300 for contents.

The state has set aside assets for claim settlement in an internal service fund, the Claims Award Fund. This fund services all claims for risk of loss to which the state is exposed, including general liability, automobile liability, professional malpractice, and workers' compensation. The college participates in the Claims Award Fund. The fund allocates the cost of providing claims servicing and claims payment by charging a premium to the college based on a percentage of the college's expected loss costs, which include both experience and exposures. This charge considers recent trends in actual claims experience of the state as a whole. An actuarial valuation is performed as of fiscal year-end to determine the fund liability and premium allocation. Since the college participates in the Claims Award Fund, it is subject to the liability limitations under the provisions of the Tennessee Claims Commission Act, *Tennessee Code Annotated*, Section 9-8-101 et seq. Liability for negligence of the college for bodily injury and property damage is limited to \$300,000 per person and \$1,000,000 per occurrence. The limits of liability under workers' compensation are set forth in

Tennessee Code Annotated, Section 50-6-101 et seq. Claims are paid through the state's Claims Award Fund.

The state has also set aside assets in the Employee Group Insurance Fund, an internal service fund, to provide a program of health insurance coverage for the employees of the state with the risk retained by the state. The college participates in the Employee Group Insurance Fund. The fund allocates the cost of providing claims servicing and claims payment by charging a premium to the college based on estimates of the ultimate cost of claims that have been reported but not settled and of claims that have been incurred but not reported. Employees and providers have 13 months to file medical claims.

NOTE 11. FEDERAL STUDENT FINANCIAL ASSISTANCE

For the year ended June 30, 2001, the restricted expenditure function scholarships and fellowships includes \$3,458,506.66 of federal financial assistance for students. These programs include, but are not limited to, Federal Pell Grants, Federal Supplemental Educational Opportunity Grants, and Federal Work-Study. The amount for the year ended June 30, 2000, was \$3,383,691.34.

NOTE 12. COMMITMENTS AND CONTINGENCIES

<u>Sick Leave</u> - The college records the cost of sick leave when paid. Generally, since sick leave (earned one day per month with unlimited accumulation) is paid only when an employee dies or is absent because of illness, injury, or related family death, there is no liability for sick leave at June 30. The dollar amount of unused sick leave was \$4,935,174.61 at June 30, 2001, and \$5,002,793.84 at June 30, 2000.

Operating Leases - The college has entered into various operating leases for buildings and equipment. Such leases will probably continue to be required. Expenditures under operating leases for real property were \$354,929.68 and for personal property were \$96,156.18 for the year ended June 30, 2001. The amounts for the year ended June 30, 2000, were \$396,423.57 and \$92,513.29. The following is a schedule by years of future minimum rental payments required under noncancelable operating leases that have initial or remaining lease terms of more than one year at June 30, 2001:

Year Ending	
2002	\$ 173,327.08
2003	170,000.00
2004	170,000.00
2005	170,000.00
2006	170,000.00
Later years	 340,000.00
Total minimum payments required	\$ 1,193,327.08

<u>Construction in Progress</u> - At June 30, 2001, outstanding commitments under construction contracts totaled \$663,204.36 for ADA improvements, Oak Ridge Branch Campus, infrastructure replacement, Scott County Multipurpose Lab, and Cafeteria improvements, of which \$212,031.19 will be funded by future state capital outlay appropriations.

<u>Litigation</u> - The college is involved in a lawsuit which is not expected to have a material effect on the accompanying financial statements.

NOTE 13. AFFILIATED ENTITY NOT INCLUDED

The college is the sole beneficiary of the Roane State Community College Foundation. This private, nonprofit foundation is controlled by a board independent of the college. The financial records, investments, and other financial transactions are not handled by the college, and these amounts are not included in the college's financial statements. As reported in the foundation's most recently audited financial report, at June 30, 1999, the foundation's assets totaled \$7,128,383.47, liabilities were \$226,017.06, and the net assets amounted to \$6,902,366.41.

NOTE 14. NEW ACCOUNTING PRONOUNCEMENTS

In November 1999, the Governmental Accounting Standards Board (GASB) issued Statement 35, Basic Financial Statements—and Management's Discussion and Analysis—for Public Colleges and Universities, an amendment of GASB Statement

No. 34. As originally issued, Statement 34, Basic Financial Statements—and Management's Discussion and Analysis—for States and Local Governments was not applicable to public institutions. Rather than issuing separate standards, GASB decided to provide financial reporting guidance for public institutions by amending Statement 34 to extend its applicability to them. Statement 35 supersedes GASB Statement 15, which currently allows public institutions to choose one of two models when preparing their financial statements—the AICPA College Guide model or the governmental model. As component units of a state government, most public institutions will implement GASB Statement 35 at the same time as the state government implements GASB Statement 34.

Under the provisions of the GASB standards, the college is permitted to report as a special purpose government engaged only in business-type activities (BTA). BTA reporting will require the college to present only the basic financial statements and required supplementary information (RSI) for an enterprise fund that includes management's discussion and analysis; a statement of net assets or a balance sheet; a statement of revenues, expenses, and changes in net assets; a statement of cash flows; notes to the financial statements; and other applicable RSI. The required basic financial statements described above are prepared using the economic resources measurement focus and the accrual basis of accounting. Fund financial statements are not required for BTA reporting.

Statement 34 will also require the college to retroactively and prospectively report all capital assets, net of accumulated depreciation, including infrastructure assets (long-lived capital assets such as roads and bridges) in the statement of net assets and report depreciation expense in the statement of revenues, expenses, and changes in net assets. Retroactive reporting of capital assets will require a prior-period adjustment to net assets. Management has not yet determined the effect of the implementation of this statement on the college's financial statements.
